

Lancaster Lebanon Habitat for Humanity
Sick Policy
Effective August 1, 2022

If you are sick, stay home. If you are feverish, do not return to work until you are fever free for at least 24 hours without medicine. Upon return, please wear a mask for 10 days, or seven days if, through a Covid-19 at-home test, you get a negative result on the start of day 8.

If you tested positive for Covid-19, regardless of whether you showed symptoms, please isolate for at least five days. Upon returning to work after a positive test, it must be after at least five days after the positive test, and you must wear a mask for an additional five days.

Under normal circumstances, masks are not required. Masks are strongly encouraged, however, if you were sick or believe you were exposed to someone with Covid-19. Masks help protect your colleagues and others around you and masking supports you while you continue to do good work.
